EDUCATION

Inter-American University of Puerto Rico – Bayamón Campus   August 2022 – 2026 (expected)

Bachelor in Computer Science

Graduation date: December 2026

GPA: 3.63

SKILLS

Technical Skills: *C++, Python, C#, Kotlin, HTML, CSS, Git, Github, Tailwind, JavaScript, MySQL, React, Azure DevOps and EF*

Soft Skills: *Teamwork, Problem Solving, Logical Thinking, Adaptability and Creativity.*

Certifications: *Foundational in C# with Microsoft, Introduction to SQL and Introduction to Data Science with Python.*

Languages: *English and Spanish*

WORK EXPERIENCE

CEGsoft(Computer Expert Group)   June 2024 - July 2024

Software Developer Intern

- Developed an internal tool for customer support to manage clients in Zendesk, including features for activating/deactivating licenses or subscriptions.
- The tool drastically reduced the time to resolve customer issues, cutting down from 1 day, 2 hours, or 1 hour to just 30 minutes.
- Learned and applied new technologies such as React, .NET 8, Entity Framework Core, Azure DevOps, API development, and C#.
- Contributed to the project's completion in one month, ahead of the planned two-month schedule.

Master Workforce Inter-American University of Puerto Rico – Bayamón Campus   June 2023 - August 2023

Research Intern

- Learned the fundamentals of Modeling and simulation for a Phishing Identification and Decision Support System.
- Played a pivotal role in the front-end development of a web application designed to train employees in phishing attack prevention and enhance overall cybersecurity.
- Proficiently used HTML, CSS, and JavaScript to create an interactive and informative user interface for the training platform.

Projects / Achievements

Association Website(Infotech):

- Developed a website using HTML, Tailwind CSS, and JavaScript.
- Successfully deployed the website using Git and GitHub Actions for continuous integration and deployment.

Copilot Studio Hackathon   January 2025 - February 2025

- Participated in the Copilot Studio Hackathon with Microsoft and Banco Popular, where I engineered a Power Automate tool and a custom Copilot Studio agent to automate tasks and combat real-time fraud and scams.

Second Place, UPR Bayamón Programming Competition   May 2024 - May 2024

- Secured second place by solving complex algorithmic challenges and demonstrating programming versatility.
- Collaborated with team members to develop innovative solutions and optimize performance under pressure.
